BONITA SPRINGS — The Ronto Group announced its plans for a comprehensive array of outdoor amenities at Omega, a new 27-floor high-rise tower to be built by the developer within Bonita Bay. The Omega tower will be the final luxury high-rise tower to be built at Bonita Bay. Omega residents will also enjoy 18,000 square feet of indoor amenities. The indoor and outdoor amenities will be integrated to provide a spectacular indoor/outdoor experience.

Designed by architect Robert M. Swedroe, the modern looking tower will feature 67 residences, including 63 tower residences and the four penthouses. Swedroe's design presents a fresh perspective on luxury and offers an approach to high-rise living that has never been available in the Southwest Florida market. Reservations worth \$70 million have already been processed. Omega's four penthouse

residences, priced starting at \$6.5 million, are sold out. Tower residence pre-construction pricing starts at \$2.15 million.

Omega's club room on the south side of the building will measure more than 3,000 square feet and feature tall windows overlooking the tower's exterior amenity deck. Located on the building's second level, the expansive deck will provide views to the south and west. Contemporary glass railings will line the deck's curved perimeter and overlook one of Bonita Bay's three on-property golf courses. A massive pool with a beach entry, and two sun shelves that will each include six chaise lounges and built-in benches will serve as the centerpiece of the amenity deck. Poolside day beds will be placed around the pool and feature retractable tops. Six private poolside cabanas are available for purchase and will include full bathrooms and a beverage center with a sink and refrigerator. Day cabanas will be available on a first-come, first-served basis. A whirlpool spa will be under a trellis.
